PROFILE

I am a highly motivated Full-Stack Web Developer specializing in Angular and .NET, with a strong foundation in front-end and back-end technologies. I have experience building dynamic, responsive, and scalable web applications, leveraging modern frameworks and APIs. My expertise includes developing intuitive user interfaces, optimizing performance, and integrating databases to deliver seamless user experiences. I am passionate about problem-solving and continuously enhancing my technical skills to stay updated with the latest industry trends. With a proven ability to work under pressure, I am committed to delivering high-quality solutions that meet business requirements and exceed client expectations.
